New Truck

Geronimo Village is in great need to replace the old tanker that is currently serving your area at Station 1. The Department has decided to purchase a new American LaFrance 3000 gal. Tanker/Pumper. This truck will be a great addition to the community. This will serve the community greatly in areas that have low water pressure hydrants or no hydrants at all. Part of the funding from this truck will come from the Bexar County Emergency Services District #2, however, the department will still be paying out over \$28,000.00 from other income. Donations are greatly appreciated to help with the funding. Also, remember that Geronimo Village VFD is still a 501(c)(3) corporation and your donations to us are tax deductible. More Pictures can be found on our website at www.geronimovillagevfd.org/members.htm.

Firefighter Training

From first-aid, brush fire suppression to structural fire suppression. We train our firefighters to be the best we can be to support our community. To help with the advancement of our training the Texas Forest Service has given us a grant to cover approximately 65% of the complete training package. Please help us raise the funds needed. Donations are greatly appreciated. We want to advance the level of our knowledge to better protect life, property, and environment.

Thrift Shop

Newly expanded thrift shop @ 2096 Talley Road. Open Saturdays from 10:00 AM to 2:00PM. Donations to the thrift shop accepted during these hours only please.

www.geronimovillagevfd.org

The website is finally here. A big thank you to George Alderink and his associates at Advanced Network Technologies, LLC. for donation of the space and bandwidth to host our website free of charge.

Watch for Santa Claus in your subdivision a few weeks before Christmas!

We do try to escort Santa down as many streets as possible within our area, however, his Christmas Eve stealth speed does not seem to transfer to our fire truck. Please keep in mind that we have 65 square miles we cover and sometimes someone needs us.

Fall Barbeque October 10

The brisket, sausage and chicken will be cooking on **October 10th** at Geronimo Village Fire Department, station 1. Our brisket is smoked for over 16 hours and we have been told it is some of the best in south Texas! We will start serving at 11:00 am and end about 5:00 pm. All orders will be take-out style but please sit with us and enjoy—we love the company. Seating is available out on the picnic tables or in our air conditioned hall. Station 1 is located at 2096 Talley Road. Take Potranco Road outside Loop 1604 to the stop light, turn right on to Talley Road and continue approximately 2 miles. Station 1 is on the right. Come early and enjoy the day, check out our fire trucks and meet with the firefighters and medics.

Upcoming Events

- BBQ: OCT. 10, 2004
- The Community Hall is available for rent call Vern Phipps @ 679-7297

Dear Geronimo Village Area Business Owners,

The Geronimo Village Volunteer Fire Department has been mandated by the Bexar County Emergency Services District #2 to perform a pre fire plan on each and every business/commercial structure in our community. The Department is required to perform one pre fire plan per month. As we proceed into our 2005 Fiscal Year, we will be contacting business for blue prints and a tour of the building. Remember this is for your safety, the safety of the community, and the safety of our firefighters. These are not fire inspections, as the Bexar County Fire Marshal's Office perform the fire inspections. The pre fire plans allow the firefighters to know what is in the building, where each room is located and what type of items are stored in each room. This will allow us to locate any persons extremely quickly that may be hurt in a closed room or trapped in a fire. The Geronimo Village Fire Department would like to thank you in advance for your welcoming us into your place of business.

Thanks Again,

Your Geronimo Village Volunteer Fire Department
